

Youth Activities

Wow, what a short but great year for the HCYC youth! It has been a pleasure to be the youth coordinator the second half of 2009. I'm honored to have been reappointed to youth coordinator for 2010.

To start off the year 2010, I'd like to complete some unfinished business from 2009. There are a couple of people whom I owe some thanks

I'd like to thank **Dan Judson** for the awesome fiberglass repair he has done on one of the club's Sunfish. It had a pretty nasty gouge that let the hull fill with water as well as other scrapes. He shared his time and expertise with the club to fix major problems with the boat.

I'd also like to thank **Velma Smith** for coordinating the Trick or Treating on the Docks and the Youth Costume Contest.

The year 2010 brings some new activities. The months of February and March are dedicated to getting the Sunfish refitted and ship shape. The youth will be kicking off the new season on April 17th with movie night. Please let me know if you have location where the middle school / high school kids can watch a movie and the elementary kids can watch a movie from 7 pm to 9 pm. That night the HCYC deck will not be available due to a party with a band. In May and July, we are planning destination sails, to locations on the lake where the kids can swim and have a cookout. Since, we will be traveling on members' boats; I'll be wanting to get a head count closer to those dates. We'll also be doing Sunfish sailing and we'll end the summer with the "Anything But a Boat Race"

See you next time!
