### *Hello Fellow Lake Lovers,*

This past Saturday's Fiesta party started out with non-stop thunderstorms which had us all worried until finally the clouds dissipated, the skies cleared and it felt like home!

The preparations began with **Wayne Anderson** and **Bryan Lindsay** grilling up a new kind of storm – a meat storm! By the way, thanks again Bryan for picking up the tasty pork - a great source of protein. **Jarrod Tubbs** and **Brent Bazar** were slicing maniacs! Who would have guessed so much meat could be sliced that quickly?!

An additional and tasty introduction to the menu was our second protein source - yummy shrimp. May I pat myself on my back for the spice preparation? We don't think we heard a single complaint about either of the fajita tacos - thanks all!

The menu also included Susan Hooper's great homemade charro beans, rice, red salsa, and guacamole. Susan, are there some Chicano cooking skills buried deep inside? As usual, preparing for the party brought in much needed and willing help. **Mary Becket** and **Diane Wiser** sliced, diced, mixed, and chopped - they did an awesome job! However, more training is needed so that I scrape more of the "meat" out of the avocado shell as I stand with an empty hand waiting (begging) for scraps!

Additionally, we had several members pitch in and bring tasty sides and desserts. We always appreciate your food - oh, I mean help – yeah, that's it!

**Kimie** and **Christie** were a Godsend in the kitchen! Not only did they help serve but what a spectacular sight with the cleaning up! I felt like a proud surgeon with a group of residents who successfully completed their first surgery!

May 22<sup>nd</sup> is our next social event. This party is an annual "Jamaican-Me-Crazy". The cost (to HCYC members) of this shindig is, once again, absolutely free! Hmmm, what kind of dietary adjustments can we include this round?!

Lastly, next month's fund raising event will be the dog races, Weiner dogs and an open division! Hang tight for the details!

*We love the lake!! Enough said!*
