

## HCYC Wireless Internet Access

We are making some changes in our internet access network. We currently have open (no password required) access to the network in the clubhouse. Within the marina we have secure access to the internet. Some members have reported difficulty accessing the network from their boats – weak signals and slow response.

The changes you can expect over the next few weeks are:

- The external antenna will be raised in an attempt to resolve the problem of accessing the network from our boats.
- On June 1<sup>st</sup> network access within the clubhouse, will be password secured just as network outside of the clubhouse is now secured.
- The network password outside of the clubhouse will be changed at the same time.
- You will be asked to sign and abide by a revised agreement.
  - The new agreement redefines acceptable use to activities that do not require large amounts of data transfer
  - After signing, agreeing to abide to the new agreement, and returning the signed agreement to the HCYC office, you will be provided with a new network password.

To have internet access after June 1, 2010, you need to send an email to Charlie Teat at [cteat1@satx.rr.com](mailto:cteat1@satx.rr.com) requesting a copy of the new agreement.
